GAINESVILLE, FLORIDA, FRIDAY, SEPTEMBER 24, 1909

TEN CENTS A WEEK

ENTIRE FAMILIES WERE WIPED OUT BY STORM

More Than a Hundred Lives Taken by Wind and Storm of Monday and Tuesday.

Death list of Gulf Coast hurricane: Terre-Bonne parish, La.—Definite, 29; reported, 40. New Orleans, 5. Pass Manchac, La., 8. East Fork, Miss., 7. Frenier, La., 4. Desair, La., 3. Jackson, Miss., 2. Baton Rouge, La., 1. Mandeville, La., 1. Bay St. Louis, Miss., 1. Donaldson, La., 1. Gramercy, La., 1. Grand Point, La., reported, 4. Barataria Bay, La., reported, 1. Total—Definite, 63; reported, 45.

NEW ORLEANS, Sept. 23.—Gradually New Orleans and the territory surrounding the Crescent City is recovering from the first effect of the tropical hurricane, which, starting Sunday, continued throughout Monday and Monday night.

Sixty-three human lives are now positively known to have been claimed as victims of the storm and forty-five others are reported to have been lost in lower Terre Bonne parish, but as yet this report has not been authenticated.

The property loss will run into the millions. Miles and miles of territory have been laid waste. Crops have practically been ruined. Dwell-

ings, cotton gins and sugar mills have been leveled.

New Orleans is still sadly crippled in the way of railroad facilities and telegraph and telephone communication with the outside world.

It was not until last night that the Western Union Telegraph Company was able to get a working wire out of the city. For two days the city's only communication with the outside world was over an improvised long distance telephone circuit of the Associated Press. Both the Illinois Central and the Louisville and Nashville railroads have suffered heavy loss, miles of their tracks having been washed away. It will be several weeks before the Louisville and Nashville will again be running trains over their own tracks.

From early yesterday the death list in the lower portion of Terre-Bonne parish increased as details of the hurricane's destruction were hourly received. It is reported that at least fifty are yet missing; they are said to have been drowned or crushed in the flying debris of wrecked mills, dwellings and fishing camps.

Thrilling tales of narrow escapes and daring rescues come from the storm-swept area.

Village Is Laid Waste.

One of the victims of the storm in Terre-Bonne parish was F. M. Smith of New Irba, who with his brother,

COUPLE REMARRIED AFTER 30 YEARS' SEPARATION.

DANVILLE, Ill., Sept. 23.—Surrounded by their children, grandchildren and great-grandchildren, D. W. Dumond, a wealthy ranchman of Alberta, Canada, was remarried to the wife he divorced more than thirty years ago.

The two were married in 1872 and settled on a farm near Attica, Ind. Several children blessed the union, and evidently they were happy until 1878, when a suit for divorce separated them. The husband went West and in succeeding years amassed a fortune.

He in after years corresponded with his children and provided handsomely for their maintenance. When they grew to manhood and womanhood their desire to see their father grew and he was repeatedly invited to visit them.

Last week the father, who was a stranger to them, arrived in Attica. There was a warm welcome and the children pleaded for a reconciliation. Both parents were stern at first, but love won and they came over to Danville and were married again. The children had married and their children had married, so three generations witnessed the ceremony. Dumond is sixty-five and his wife is sixty-two.

32 LIVING CHILDREN IN MICHIGAN FAMILY.

LANSING, Mich., Sept. 23.—What is probably a record number of children in one family was disclosed through the receipt of a birth certificate at the Secretary of State's office, showing that Joseph Tatro, 58 years old, living in Pinconning township, Bay county, is the father of twenty children and the step-father of twelve others, making a total of 32 children in the family.

At the time of his marriage to Hattie Chabineau, Tatro had fifteen children of his own, while she had twelve. Since then they have added five more to the list. The father is a native of Michigan.

Winked at White Woman.

A Washington dispatch says Charles Hammett, a negro who said he was from New York, was sentenced to six months in jail in the police court for insulting a young white woman.

"Why did you whistle to the young lady and wink your eye at her?" asked Judge Kimball of Hammett.

"I didn't know anyone to introduce us," said Hammett. "That's the way we do it in New York."

"I advise you to go back to New York when you have served your sentence," remarked Judge Kimball.

A. F. Smith, and a dozen friends, made up a fishing party at Sea Breeze. The brother of the drowned man reached Houma, La., yesterday, bringing the news of his brother's death.

Pleasure craft and shipping of all kinds in the bayou inlets were totally destroyed and the loss will be heavy. Store houses, sugar mills and dwellings of every character at Houma and other villages suffered heavily and scarcely a structure was untouched by the hurricane.

The damage done by the storm at Grand Island, Cheniere Caminada, was very heavy, but at these places there was no loss of life. The crops of these islands were totally destroyed and the orange groves were stripped clean of fruit and foliage.

Lineman's Narrow Escape.

The first news from these islands was received yesterday when the mail steamer Grand Isle reached this city. It was feared before the arrival of the boat that hundreds had lost their lives. In the tropical storm of 1893 no less than fifteen hundred people were drowned on Cheniere Caminada. One man lost his life at Bay

WHOLE FAMILY KILLED; ROBBERY THE MOTIVE

Six Persons, Including Two Women and Three Children, Victims of Horrible Crime.

BLUEFIELD, W. VA., Sept. 23.—An entire family of six persons were murdered and the bodies of all but one of the victims were burned with their home at Hurley, Buchanan county, Virginia, early yesterday. The motive was evidently robbery, as the owner of the house, an aged woman known as "Aunt Betty" Justis, was generally supposed to keep a large sum of money about the place.

Mrs. Justis, her son-in-law, George Meadows, his wife and their three children were the victims.

Meadows' body, badly mutilated, was found yesterday morning lying in the yard of his destroyed home, the funeral pyre of his loved ones. Two bullet holes through the body and a ghastly wound in the neck, which almost severed the head from the body, gave the discoverers their first evidence of the extent of the tragedy.

A search of the ruins of the house disclosed a sickening spectacle. The blackened masses of half-burned flesh

and charred bones of two women and three children were found beneath the debris, each body bearing evidence of murder committed before the house was destroyed by fire, evidently for the purpose of hiding the crime. The elder woman's skull was upturned some distance from the remainder of her half burned body among the smoldering ruins.

Another daughter of Mrs. Justis told the police that her mother had a large sum of money buried under the sill of the house and they succeeded in digging up \$950 in gold and silver. The murderers are supposed to have obtained the \$600 which "Aunt Betty" always carried on her person.

Bloodhounds were rushed to the scene and in short time they took the trail of the supposed murderers in a corn field which joined the Justis home. There the foot prints of three men were found impressed in the soft soil. A posse of citizens heavily armed are following the bloodhounds, bent on lynching the murderers if they are captured.

End of World Is Predicted for This Afternoon

WEST DUXBURY, Mass., Sept. 23.—Firm in their conviction that the world will come to an end at 1 o'clock this afternoon, a colony of about 300 members of the denomination known as the "Latter Reign of the Apostolic Church," are spending what they believe to be their few remaining hours in prayer, song and exhortation. The scene of their religious ardor is "Ashdod," a little wooden chapel on the main turnpike between Boston and Plymouth in this town.

Worldly tasks have been laid aside that the faithful may prepare for the millennium.

The services are practically continuous. In all branches of the worship the congregation participates, singing the hymns with fervor and interrupting prayer and exhortation with pious ejaculations. Occasionally the services at the chapel are suspended long enough to permit a trip to the neighboring pond, where the converts are baptized.

To feed the crowd that is attending

the meetings, a big tent has been erected near the church, while the houses in the neighborhood, and even the church horse sheds, furnish a lodging for the people.

They believe the top crust of the earth will peel off, carrying the wicked to destruction and leaving the "elect" in undisputed possession of the world. Leaders of the sect from Rhode Island, Maine and elsewhere are now at Duxbury, and many of them have disposed of all their worldly goods.

Nose of the faithful appear to have a shadow of a doubt that the world will end Friday afternoon. When asked what they will do if the expected event does not materialize, most of them refuse to entertain such a supposition. Some suggest that a love feast be held for ten days or so, while others still say that if the millennium does not come today it will come next year at the same season.

Amount of \$1,290 in Cash Most Mysteriously Missing

TAMPA, Fla., Sept. 23.—As a result of a mysterious robbery in the internal revenue offices of the custom house Tuesday, \$1,290 is missing. Just how the money disappeared is a puzzling question.

The loss came to light when Deputy Collector of Internal Revenue George W. Stockin, who presides over the stamp sales window in the office, went to the bank to make a deposit. He had with him, or thought he had, a bundle of bills, amounting to nearly \$5,000. When the deposit was checked in the package was found to be short \$1,290.

In the internal revenue offices a search was immediately commenced for the missing money, but it was without avail. The office had been

opened, as usual, during the hours for business and the usual routine of a day had been transacted. There was no chance to have dropped the amount noted on the way to the bank, as the package was held together by two rubber bands, besides being carried with the usual precaution and carefulness Mr. Stockin exhibits when making a deposit.

Joseph N. Clinton, chief deputy collector, under whose charge this office is, was asked for a statement concerning the matter, but declared he did not care to discuss the matter.

The matter will probably be closely investigated, although so far not a clue has been found that could lead to any conclusions as to the disappearance of the amount in question.

Georgia Will Get \$100,- 000,000 for Cotton Crop

ATLANTA, Ga., Sept. 23.—More than \$100,000,000 will be distributed among the people of Georgia alone during the next six months through the marketing of the cotton crop, according to Harvey Jordan, president of the Southern Cotton Association, and one of the leading cotton men of the country.

"With spot cotton selling at 12½ cents at interior points and cotton seed at \$19 per ton," he declared, "the fall season is opening with a veritable tidal wave of prosperity which will increase the pulse of trad-

Oklahoma, Arkansas, Louisiana and Mississippi, while the production in all the Eastern States will be under that of last year. Reports indicate a considerable portion of this crop was sold during the summer by growers and supply merchants for delivery in October and November, and when these deliveries are made the original hedges sold against them will have to be bought in and this fact alone will tend to strengthen and maintain the market."

Dickinson Says South Does Right to Revere It's Sons

NASHVILLE, Sept. 23.—Secretary of War Dickinson, as guest of honor of the Daughters of the Confederacy at the State Fair yesterday, made an address in which he said: "I always kept on conspicuous display in my residence portraits of Davis, Lee and Jackson, and with them the Confederate colors. They were seen there by our President, by the son of Grant and by the son of Lincoln, and by many Union soldiers. It never occurred to me to offer any explanation or apology."

"Sensible people of the North know that, in cherishing these senti-

in erecting monuments to perpetuate their fame, in giving the true history of our contest and in teaching our children to reverence the memory of those who sustained the Southern cause, there is no protest against the Government under which we live."

In recounting the bitter sentiments formerly existing on account of the Civil War, Mr. Dickinson told this story:

"I recall that Gen. Luke E. Wright told me that one day his boy came from school and asked if his grandfather, Admiral Semmes, was a pirate, showing in his history where it was so recorded. A different spirit,"

GREAT INTEREST IN EDUCATIONAL CAMPAIGN

SUPERINTENDENT HOLLOWAY SPEAKS OPTIMISTICALLY.

First Schedule Arranged From Oct. 8th to 18th—Accident to a Tallahassee Man.

TALLAHASSEE, Sept. 23.—"Great interest and enthusiasm are being manifested in the coming educational campaign," says the State Superintendent, Hon. W. M. Holloway. "The counties are responding with the greatest willingness to the request for money appropriations, and the Secretary of the Educational Conference, George M. Lynch of Gainesville, has admirably arranged the first section of the campaign schedule.

"This schedule will run from October 8th to October 18th, by which time Mr. Lynch will have arranged another schedule for West Florida and all other counties not mentioned in the first section. Every county in the State will be thoroughly canvassed, and we expect to arouse the people to a greater interest in educational work than has ever been before manifested in Florida."

Already there is an awakening among the people. Dr. Conradi, of the College for Women, reports today a list of 141 applicants for residence in the dormitories. This far exceeds anything that has yet been done by the Woman's College at so early a date. Dr. Murphree, of the University, writes that his list is double that of last year, which shows that the Florida State institutions are forging ahead into reputation and prominence.

Misfortune to Citizen.

Hon. J. T. Bernard, one of Tallahassee's oldest and most honored citizens, had the great misfortune this morning to fall and break his hip. He stumbled over a rug in rising from his office chair. Medical assistance was close at hand and the Judge was carried to the residence of his son-in-law, Mr. T. B. Byrd, where he will be tenderly cared for. Fortunately the fracture was a "clean" one, and easily managed, and the patient is at ease in body and cheerful in spirit.

ENTIRE FAMILIES WERE WIPED OUT BY STORM

(Continued from Page One.)

St. Louis, a fisherman, name unknown, who was drowned Monday.

A number of other places are yet to be heard from. The long railroad bridge at Bay St. Louis is a complete wreck and it will be weeks before it is repaired. When the storm struck this bridge, George Doherty, a Western Union lineman, was attempting to repair the wires. He and three negroes were carried down.

"The waves were running at least fifty feet high," said Dougherty, "and if we had not lashed ourselves to a raft with wire we would have been drowned. The bridge went down Sunday and we were washed around in the bay until Monday afternoon, when we were picked up by a fishing schooner."

Refugees have been arriving in the city for two days.

HEAD-ON COLLISION RESULT OF STORM'S WORK.

NEW ORLEANS, Sept. 23.—Lack of telegraphic service as a result of Monday's hurricane is believed to have been responsible for a head-on collision on the New Orleans and Northern, four miles south of Hattiesburg, Miss.

Late yesterday a southbound work train crashed into a northbound excursion train, killing fireman Fitzgerald of the work train and injuring others.

SEVEN IN ONE FAMILY MEET DEATH IN STORM.

NEW ORLEANS, Sept. 23.—Advice received here last night from East Fork, Miss., that Mark Hamilton, his wife and five children were killed when their home was

NEWS OF CITY AND COUNTY CONDENSED

Lost—Ladies' solid gold hunting-case, "O"-size Waltham-movement watch, with small scratched number in back case X7179; on fob was a Randolph-Macon pin and half-dollar charm. May have been lost on Gainesville-Rochelle-Micanopy road. Reward for return of same to this office.

I. F. Lamb of Worthington Springs was a business visitor to the city yesterday. Mr. Lamb says the springs have enjoyed the largest season this year in the history of the place and that with the many great changes that are to be made there next year will even surpass it, for Worthington is fast becoming popular among the people.

Dr. and Mrs. J. M. Farr, who have been spending the past few months at Union, S. C., and other points, arrived in the city last night. The Doctor has been assigned the high position of vice-president at the University and returns in time to assist in the final arrangements for the grand opening, which will occur on next Wednesday.

Many people delude themselves by saying "It will wear away," when they notice symptoms of kidney and bladder trouble. This is a mistake. Take Foley's Kidney Remedy, and stop the drain on the vitality. It cures backache, rheumatism, kidney and bladder trouble, and makes every trace of pain, weakness, and urinary trouble disappear. J. Capt. George M. Lynch, always identified with the educational interests of this State, was in the city yesterday on business, and while here made his headquarters at the Park Hotel. Capt. Lynch is a member of the faculty of the University of Florida, and has been working for the University all summer. He states that indications point to a very prosperous season in Gainesville.—Times-Union, 13rd.

DEPUTY WYNNE GETS ANOTHER BAD NEGRO

SHOT SUPERINTENDENT OF MUTUAL MINES LAST WEEK.

Party Was Located at Dunnellon, Where He Was Placed Under Arrest.

Henry Jones, the negro who shot E. L. Dennis near Newberry last week, has been arrested and is now lodged in the county jail owing to the efficient work of Deputy Wynne of Newberry.

There was a general row in a "juck" located close to Mutual Mine No. B, when Mr. Dennis, who is the superintendent in charge, went out to stop the occurrence and the negro shot him in the hand, taking off three of his fingers.

Following the shooting, and in a general fight that was in progress, the negro made his escape and was later located at Dunnellon by Deputy Wynne, who had Marshal Thomas of that place arrest the man and he went for him.

Mr. Dennis offered a reward for his capture, as well as the mine people, and it was not long afterwards before the deputy was "hot on the trail" of the fugitive.

About the time of this occurrence there were a number of fights in that section and Sheriff Ramsey made a special trip there to try and locate the parties, but some of them had made good their escape by the time of his arrival.

The negro will be given a preliminary hearing in this city before Judge Mason today, unless he waives examination and awaits the action of circuit court.

RAMSEY RETURNS WITH MAN.

Secured the Right Party Through Proper Description.

Sheriff Ramsey returned Thursday with the negro, Will O'Neill, who he had arrested by Sheriff Perry of St. Augustine.

Mr. Ramsey states that the negro strongly denies that he is the guilty party, but he has already been recognized by a number of citizens who know him and who state positively that he is the party wanted for murdering his wife at Micanopy.

This was a valuable catch for the sheriff inasmuch as the negro has been absent from the county for about two years, during which time he has visited numerous places, and had traveled considerably, but Sheriff Ramsey had been on his trail, finally having him arrested in the Ancient City.

Experience With Opossum.

Cashier E. D. Turner of the Dutton Bank had an exciting experience Wednesday evening with a large fat opossum which had been giving him trouble for the past few weeks by taking some of his choicest fowls from the hen house. On Wednesday night, however, he made his appearance earlier than usual, with the result that he found Mr. Turner up and ready for the game with his gun, and after shooting the "varment" four times and not killing him he was compelled to demolish him with an axe.

S.S.S. CURES SKIN DISEASES

The cause of all skin diseases can be traced to some humor or acid in the blood; the cuticle is always healthy where the circulation is free from impurities. When the blood is infected with acid or unhealthy matter it cannot perform its natural work of nourishing the skin, regulating its temperature and preserving its normal softness, pliability and healthfulness. Instead it irritates and inflames the delicate fibres and tissues around the pores and glands and produces some of the many forms of skin disease. The itching and stinging so often accompanying skin affections are produced by the deposit from the blood of the acid humors with which it is filled, into the sensitive membranous flesh lying just beneath the outer covering, and surrounding the countless nerves, pores and glands. This explains why scratching the outer skin affords no relief from the itching and burning. S. S. S. cures Skin Diseases of every character by purifying the blood. It goes down into the circulation and removes the humors or acids which are causing the trouble, builds up the weak, acid blood, and permanently cures every variety of skin affection. Local applications can only soothe; they never cure because they do not reach the blood. S. S. S. goes right into the circulation, reaches the trouble and cures it by removing the cause. Book on Skin Diseases and any medical advice free to all who write.

UNIVERSITY BUILDINGS ARE GOING UP

CONCRETE WORK FINISHED ON ADMINISTRATION BUILDING.

Bricklayers to Commence on Their Work Next Week With a Large Force.

Work is progressing rapidly on the new buildings at the State University and the contractor, J. J. Cain, who was here Thursday, states that he will have the buildings all completed by April, next, should nothing unforeseen happen.

The foundation for the Administration building, which is made of concrete, has all been completed and brick work will be started there by the first of the coming week, a force of about fifteen masons being employed on the job.

This building will be 140x66 feet with a few inches over, and will be three stories in height with basement. The basement proper will be used principally for storage purposes, while the remaining three stories will be used for recitation and class rooms, being especially arranged for these purposes.

The Experiment Station building will be a most handsome structure and the excavations for the foundation are now being made. This building will be four stories, including the basement, and will extend 108x67 feet, being amply large to accommodate the present demands.

Supt S. C. Reed, who has charge of the work for the contractors and who is "onto" his job, is rushing both places and is kept busy superintending from one point to another, but says that both will be ready to turn over to the trustees by April of next year, even though they are large buildings.

Several carloads of brick have already been placed on the ground, and a number will arrive daily, so by the time the brick work starts next week the greater part of this material will be on hand.

NEW BUSINESS VENTURE STARTS TONIGHT

FIRM WILL OPERATE MOVING PICTURE MACHINE.

Show Will Be Run on Strictly High-Class Basis and Best Vaudeville Engaged.

Another new enterprise which is destined to afford much amusement for the citizens of the city is the moving picture show which will open tonight in the New Baird Theatre under the management of Voyle & McCollum.

They have the latest improved machine and propose to put on one of the very best shows ever given in the city for the price, which will be 5 and 10 cents when they fail to have on vaudeville and 10 and 15 cents upon the nights that special vaudeville attractions are presented.

By special arrangements they have arranged to give a very satisfactory service, and will doubtless meet with a hearty patronage from the people of Gainesville.

This show will be run throughout the season, or as long as it proves profitable to the owners, excepting, of course, when they have other bookings for the large play house.

The vaudeville feature of the show will be looked after with the greatest of care and nothing of an objectionable nature will be engaged, hence they feel that such an entertainment will meet with the hearty approval of the Gainesville public.

Gone to Olustee.

Mrs. R. C. Cooley left today for Olustee to locate the Confederate monument which is to be erected on that battlefield. It is being erected by the commission appointed by Governor Bloxham, which is composed of Gen. E. M. Law of Bartow, chairman; Gen. Wittich of Pensacola; Mrs. Roselle C. Cooley of Jacksonville; Mrs. H. H. McCreary of Gainesville, and U. S. Senator D. U. Fletcher.

This commission, it will be seen, is composed of two Confederate Veterans, two Daughters of the Confederacy, and one representative of the Sons of Confederate Veterans.

General Law, in March last, appointed the following committee on location and contract: Mrs. Roselle C. Cooley, chairman; Mrs. McCreary of Gainesville, and United States Senator D. U. Fletcher. Senator Fletcher is also secretary and treasurer of the commission.

The party which left here today, consisted of Mrs. Cooley, Senator Fletcher, Mr. LaMance, the contractor, Mr. Kooker, civil engineer of the Jacksonville Development Company, and it is expected that Mrs. McCreary will meet the party at Olustee.—Jacksonville Metropolis, 23rd.

Will Return to Orlando.

Jesse E. Burtz, who has been here for the past three weeks since returning from Orlando, will leave today for that city for a two-fold purpose. Mr. Burtz has accepted the position as associate editor of The Reporter-Star and will in future be connected with that paper in that capacity. He will also complete his work upon the directory and make the delivery for one of the largest books he has gotten out in the State in the past few years, and which will be a great credit to the compiler and publisher. Jesse was for a number of years connected with this paper in the capacity of city editor, and his hosts of friends join in extending to him their best wishes and trust that he will be pleased with his new home. His family will continue to make Gainesville their home for the present.

DOING THEIR DUTY

Scores of Gainesville Readers Are Learning the Duty of the Kidneys.

To filter the blood is the kidneys' duty.

When they fail to do this the kidneys are sick.

Backache and many kidney ills follow;

Urinary trouble, diabetes.

Doan's Kidney Pills cure them all. Gainesville people endorse our claim.

Mrs. V. E. Spence, 201 W. Arlington street, Gainesville, Fla., says: "It would be hard to describe how I suffered from a weak and aching back. At times the pains were so intense that I could not get up or down. I was also troubled by rheumatism and different parts of my body became stiff and lame. A friend finally advised me to try Doan's Kidney Pills and procuring a box, I began their use. I am glad to say that they lived up to representations, removing the pains and disposing of the rheumatism. I can honestly say that Doan's Kidney Pills did me more good than any medicine I had previously taken."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

ORANGE HEIGHTS.

ORANGE HEIGHTS, Sept. 23.—Miss Fannie McMillan and brother, Major, left us last week for Northern Georgia. Major will attend school there and Miss Fannie will visit among her relatives.

Mrs. Frank Yearwood of Melrose visited her brother, Wm. McMillan, last week.

Miss Anna Lewis left Monday of this week for Lake Butler, where she will attend school.

Our merchants are busy buying cotton.

John Fletcher and son, Luther, have been making a garden on the place where they expect to move this winter, "The Prairie," near Micanopy.

Bro. Boothby, a local preacher from Waldo, opened up a series of meetings in our neighborhood last Sunday morning, also preaching in the evening. On Monday afternoon we were very highly favored. Brother Williams of Jacksonville, the editor of The Christian Advocate, spent a short time with us and gave us a good sermon. Monday evening Brother Barr, our pastor, was with us, and Tuesday Brother McCall of White Springs came to assist the pastor in the services. Miss Daisy Hicks and Grandma Boring of Waldo also came and are helping in the work.

Several people from Melrose attended services here Wednesday evening.

ALBRIGHT BUILDING IS BEING COMPLETED

WILL BE READY FOR OCCUPANCY NEXT MONTH.

Almost Certain That Another Wholesale Grocery Will Be Established When Same Is Completed.

The large building being erected by A. S. Albright, which will be used for a wholesale grocery business, is again being worked upon and the proprietor states that he will complete it now without further delay, expecting to have the same finished by the latter part of next month.

This large and handsome building was started over a year since, but owing to the prevailing conditions it was thought best to abandon the work for the time, with the result that it has been only partially completed, but the delay will cause it to present a much neater and finer appearance.

The building is about 125 feet long and about fifty wide, being two large well-lighted stories, and will prove a valuable place for the line of business that it is being built for.

The location is another important factor, for it has a siding already to the doors of the building on one side, while a sufficient space has been left for a road and teams on the other side. It is being finished in sand-lime brick and will make a pretty appearance when completed.

Mr. Albright stated Thursday that he had a large number of applications for the building as soon as it is completed, but he is undecided and will probably use it as a general wholesale grocery business himself, unless he could succeed in getting a fair rental on the investment.

Amputation of Finger.

H. R. Wilburn, who suffered injury to his left hand by the discharge of a gun which he was cleaning at the store of the Gainesville Hardware Company about two weeks since, continues to suffer from the effects of the wound, and on Thursday it was found necessary to amputate the forefinger of the left hand. Blood poison was threatened, but it is now hoped that he will soon regain his normal health.

Testifies After Four Years.

Carlisle Center, N. Y., G. B. Burhans, writes "About four years ago I wrote you that I had been entirely cured of kidney trouble by taking two bottles of Foley's Kidney Remedy, and after four years I am again pleased to state that I have never had any return of those symptoms, and I am evidently cured to stay cured." Foley's Kidney Remedy will do the same for you. J. W. McCollum & Co.

Contractor Cain Here.

J. J. Cain, who has the contract for the University buildings, arrived in the city yesterday to be here for the next few days looking after his interests. He expressed himself as highly pleased with the fine progress being made upon the work, all of which will be rushed to completion as fast as possible.

Have You a Baby?

Then watch it closely. And above all things don't let it suffer for any length of time with worms—that is fatal. If it's complexion gets yellow and pasty, if it is listless, cross or peevish, gets thin, suffers with flatulence, give it White's Cream Vermifuge—the only cure that never fails and has no bad effects. Sold by W. M. Johnson.

"Money cannot buy happiness," is the remark attributed to one who, if happiness could be purchased by money, ought to have plenty of it, as her husband is a millionaire. But the circumstances attending her wedding were of such a character that no one wonders she now realizes there are some things money cannot buy. Money can build palaces, but it cannot make home; it can build costly yachts, but it cannot make that which is morally wrong morally right; it can enable one to live in luxury, but it cannot buy self-respect; it can gratify one's wish for the most elaborate and costly Parisian gowns, but it cannot restore a shattered reputation. It cannot even open the way for recognition in society, and that fact scores one in favor of society. The moral of it all is obvious.

FOREST AND THE NATION.

"More thorough knowledge of actual forest conditions has brought a wide realization of the importance of the forest in the life of the nation," says Treadwell Cleveland, Jr., in speaking of the progress of forestry for the last year in the Year Book of the Department of Agriculture.

"Enough is now known to make imperative a complete change in the methods of forest use, and the ways in which this change may best be brought about are discussed with equal interest by the specialist and the man in the street.

"National welfare, as well as individual comfort, is seen to be dependent upon forest conservation. To this better knowledge and surer insight is mainly due the progress which forestry has made in the past year.

"Unprecedented forest fires served a similar purpose, so that the lesson which they taught, in spite of its terrific cost, will probably pay for itself. With a unanimity never before paralleled the people of the country are demanding that a stop be put to forest waste and destruction.

"The more striking lines of advancement in forestry in 1908 were the following:

"(1) Through appropriate educational channels, public interest in forest problems was secured more directly and effectively than ever before. Especially valuable was the work begun in the schools, from the primary grades to the colleges. The press aided materially in making clear the need and purpose of forest conservation.

"(2) The management of the National Forests was more scientific, and at the same time more satisfactory from a business point of view and more useful to the public, than ever before.

"(3) The States displayed a keener interest and a livelier activity in forest matters, and State legislatures either passed or considered bills in which advanced provisions were made for forest protection from fire and unjust taxation and for regulating the use of private forest property in the interest of the public welfare.

"(4) A partial census taken among private forest owners furnished proof that the practice of private forestry is extending more rapidly than was supposed, particularly among those who in their businesses are themselves users of forest products."

AN ERA OF REFORM.

We are living in an era of reform. Great problems affecting the individual, society, organizations of all kinds, and the State, are constantly arising and await solution. This is well, for it indicates a healthy intolerance of imperfections and abuses and a determination to uproot them wherever they exist. Of course the movement is not without its dangers, for unwise methods, freak legislation and unreasonable impatience are sometimes seen, and they hinder instead of help. Yet even that is better than stagnation with its indifference and unwholesome toleration of wrongs.

But experience, the common sense of the people and the wisdom of leaders in whom the people confide, will in time satisfactorily solve these problems, and so step by step, slowly, even laboriously, yet surely, this old world is steadily growing better.

During the last fiscal year of the Patent Office, more patents were granted than ever before in the history of the department, the total being 34,332, or 229 more than the year previous.

Lord Rosberry's attack on the British budget was awaited with considerable interest because of his prominence and the fact that he was once premier in a Liberal administration. The attack has now been made, and its character was much as people expected it would be. Its principal effect will be to stiffen the opposition of the Lords who now will probably reject the budget. Perhaps that will be just as well, as it will hasten the inevitable trial of strength between the people and the privileged classes, who hitherto have escaped their just share of taxation, and determine for all time the dominance of the Commons instead of that of an irresponsible legislative chamber. As for Lord Roseberry himself, he has from a party standpoint always been an uncertain quantity who preferred, as he once said, to "plow his furrow alone."

It is unfortunate that the achievements of men usually give rise to wrangling in which considerable bad temper is displayed. This was seen during and after the Santiago campaign in Cuba and the Sampson-Schley controversy in the Spanish-American war. Other numerous instances might be quoted. And now a veritable war of words is one outcome of the discovery of the North Pole. What good does it do? It cannot settle the question or the conflicting claims of the two eminent explorers. That can only be done, if at all, by the scientists. The only effect of the controversy is to evoke a lot of positive and strongly worded statements in every community and create bad feeling. People had better learn a lesson from the pole itself by keeping cool.

Why We Are Stronger.

The old Greeks and Romans were great admirers of health and strength; their pictures and statuary made the muscles of the men stand out like cords.

As a matter of fact we have athletes and strong men—men fed on fine strength making food such as Quaker Oats—that would win in any contest with the old Roman or Greek champions.

It's a matter of food. The finest food for making strength of bone, muscle and nerve is fine oatmeal. Quaker Oats is the best because it is pure, no husks or stems or black specks. Farmers' wives are finding that by feeding the farm hands plentifully on Quaker Oats they get the best results in work and economy. If you live in a hot climate buy Quaker Oats in hermetically sealed tins. It keeps sweet and fresh.

dock from Miami was run last Sunday. Nearly three hundred persons availed themselves of the opportunity of viewing for the first time the enormous work done on the extension.

A fire occurred at Vernon recently, which completely wiped out the earthly possessions of C. Miller. His entire stock of merchandise and household furnishings were destroyed with a loss of about \$2,500, and no insurance.

While the train waited fully twenty minutes, J. B. G. Smith and Miss Annie Lee Stokley of Drifton, Fla., were married on the station platform at Lake City a few days ago. The parents on both sides objected. It was a runaway match.

Lakeland now has a curfew law, which went into effect last Saturday night. At 8:15 all minors of that town were warned by three long and impressive blasts of the whistle at the electric light and water plant that it was time for them to "go home."

Dr. Trout, the Episcopal missionary to the Seminole Indians, during his last visit to the Everglades met with good encouragement and saw evidence of the effectiveness of the work he is doing. He baptized E-faw-le-har-jo, the most influential man among the Seminoles.

U. J. White's sawmill was destroyed by fire Saturday. The mill was located at Dupont, in the southern end of St. Johns county. All was entirely destroyed except the planing mill and barrel factory. The value of the plant was \$16,000 and the insurance \$10,000. Mr. White will rebuild at once.

Last Saturday a spark from the steam roller at work on North Beach street, in St. Augustine, ignited a strip of cotton cloth stretched along the roofing at the front of the Vet Cave cigar factory. The dead fans of some palmetto trees in front of the building were also set on fire and it took some time and hard work to keep the fire from spreading. Very little damage was done.

FOR CITY MARSHAL.

To the Voters of the City of Gainesville: A special election having been called on Tuesday, October 19, for the election of a Marshal to succeed Ben T. Arnow, resigned, I beg to announce that I will be a candidate for that office, and ask the support of my friends. Being thoroughly experienced along the line of police work, which has been gained by a practical experience, and being now acting Marshal, if my action in this capacity meets your approval, I ask your votes to be continued in office. Sincerely, HARRY L. OWENS.

I respectfully announce myself a candidate for City Marshal at the special election to be held on October 19th. I am in the race until the polls close on the day of the election, and respectfully solicit the votes of my fellow-citizens, promising, if elected, to perform the duties of the office without fear or favor. Give me your support, and you will never have cause to regret it. CHAS. M. DELL.

Refused to Promise to Obey and Was Deserted at Altar

PITTSBURG, Pa., Sept. 23.—Because in January, 1841, she declined to promise to "obey," Mary E. Torrence, nee Powers, was deserted at the altar after the marriage ceremony had been performed making her the wife of James Torrence. After almost sixty-eight years, Mrs. James Speer of Elizabeth township proved to the satisfaction of the orphans' court at Pittsburg Tuesday that she is the child that was born of this strange

wedding, and the court awarded her half of the estate of her father, James Torrence, who died worth \$3,000,000, many years ago.

It was not until Mrs. Speer produced lockets which had been exchanged between her mother and father almost seventy years ago that the court was convinced and ordered that half the estate be given to Mrs. Speer, who is now gray-haired and tottering.

NEWS FROM REX.

REX, Sept. 23.—Cotton picking is still the order of the day.

The Godwin school opens next Monday with Miss Hattie Hawthorn as teacher.

Robert Weeks and wife visited Mrs. Godwin last Sunday.

A. A. Wetherington of Madison has been visiting his daughter, Mrs. Samuel Shaw.

Most of our farmers are inquiring everywhere for hogs to eat the peanuts, corn and other such stuff they have raised this year. They should raise the feed and hogs both next year.

Miss Marie Shaw entertained a number of her little friends last Thursday afternoon in honor of her eighth birthday. After they had played a number of childish games they were invited in the dining-room where ice cream, cake, fruit and candy was served. Miss Marie received a present from each child and they all wished her many happy returns of the day.

Miss Pearl Huff expects her sister, Miss Bessie, from Virginia, to visit her next week.

Most of our farmers are planting their fall gardens. OLD MAID.

The Witches' Tree.

Country people speak of the elder tree as "the witches' tree" and planted it near farm buildings and dairies to keep off witches. They also say that the roots should never come near a well, still less grow into it, or the water will be spoiled. Evelyn's opinion was also unfavorable. He says: "I do by no means commend the scent of it, which is very noxious to the air."

"We learn from Biesius that a certain house in Spain, seated among many elder trees, diseased and killed nearly all its inhabitants, which, when at last they were grubbed up, became a very healthy and wholesome place."

Cattle scarcely touch the elder, and the mole is driven away by the scent. Carters often place branches on their horses' heads to keep off flies. Nothing will grow well in the company of the elder, and when it has been removed and all its roots carefully grubbed up it is some few years before the ground becomes perfectly sweet and good for anything.—Selborne's Magazine.

—SAVANNAH, GEORGIA—

GAINESVILLE, —THE— University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and consistent congregations; has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Paine's Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance.

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the nineties in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.

The University of Florida for young men and the National Agricultural Experiment Station are located within the corporate limits of the city. In fact, Gainesville has so many things that we must be pardoned if we omit

Who Pays For Your Printing?

Poor printing is a detriment to any business, and is an unprofitable investment. Poor printing is usually paid for twice—once when you settle with the printer, and again in the injury it does your business.

GOOD PRINTING PAYS FOR ITSELF!

In the added business it brings, in the complete satisfaction you feel in sending out neat, tasty stationery, and its first cost is soon on the credit side of the ledger. Good printing is remembered long after the price is forgotten.
